

## ALLERGEN INFORMATION

(U.S. RESTAURANTS)

At Olive Garden, we're committed to making the dining experience for every guest, including our guests with food allergies, an exceptional one. That's why we are proud to offer this information to help you make an informed food selection.

The information inside details which menu items contain the most common allergens and intolerances, based on the information provided by our suppliers. We work to keep this information as up-to-date as possible, and suggest you check our allergen information each time you dine with us. Please also note that this information does not indicate which items may have been made in a facility with an allergen.

Because all of our dishes prepared-to-order, our normal kitchen operations may involve shared cooking and preparation areas. Therefore, we cannot guarantee that any menu item can be completely free of any allergens. Items cooked on our grill or in our fryer present a special risk for cross-contamination, so we've clearly identified those for you. In addition, our pastas with egg and without egg are cooked in the same pasta cooker.

Our menu items are freshly prepared in our kitchens, which are not free of gluten. Cross-contact with other food items that contain gluten is possible. While we aim to accommodate the dietary needs of our guests, we cannot ensure that these items meet the definition of "gluten-free". Please let your server know you are avoiding gluten.

According to the FDA, highly refined soybean oil is not considered major food allergen and therefore is not listed here.

**If you have questions about this information, please ask to speak to a restaurant manager. Before placing your order, please inform your server if a person in your party has a food allergy.**

Please know that due to limited ingredient information available in our kitchen, we may not be able to answer all of your questions.

KEY TO THIS GUIDE	PREPARATION		COMMON ALLERGENS											
	Fried (in 100% canola oil)	Grilled	Dairy	Egg	Fish	Crustacean shellfish (crab, lobster, shrimp)	Mollusks (mussel, oyster, scallop)	Tree Nut	Peanut	Wheat	Gluten	Soy	Sesame	Sulfites
Y Menu item contains this specific allergen (includes all cooking sauces, condiments and fixed accompaniments). • Menu item presents a special risk of cross-contamination of all allergens due to the cooking method.
